IRMA & DISTRICT GOLDEN JUBILEE SPORTS - Wednesday, Aug. 3rd

Elks' Barbecue and Picnic Well Attended

The Benevolent and Protective Order of Elks, Irma Lodge No. 366, held their Third Annual Barbecue and Picnic at the North Irma Community Centre on Sunday, July 10. They were blessed with a fine day, an excellent crowd, a very fine round of entertainment and a perfect barbecue supper.

There were eight entries for the softball tournament: Trisane Turen, Ribstone, Kinsella, Batts, Vermilion, Army, Chauvin Salt Lickers and Strawberry Plans. Unfortunately the Army team had to default. Otherwise it was one of the best softball tournaments ever held in this district. The Kinsella team had a narrow 8-7 victory over Salt Lake in the finals.

Irma and Albert 15 and under softball teams put on a fine game which Albert won.

The horseshoe tournament attracted all the best players in the area. We regret that the names of the winners are not available at present.

Three Elk Tag-Of-War teams sweated, puffed, pulled and tore up the sod with the result that Irma beat Wainwright and were in turn beaten by Chauvin. Irma's anchor man, Cliff Jones, dragged his anchor in the last pull.

A softball team of Irma Elks won a close decision from the Wainwright Elks but this game drew few spectators from the tournament final which was being played at the same time.

A highlight of the day was the football game between the Wainwright and Irma Elks Lodges. The teams' uniforms were a bit informal. The Irma team's uniforms were quite eye catching. However, the oddness of the uniforms was at least equalled by the players' knowledge of the game, but what they lacked in science they more than made up for by enthusiasm. There were very few casualties. Most of those who were cured very quickly as immediately following this game, the barbecue pit was opened and supper was served. A delicious supper thoroughly enjoyed by all.

Barbecue kings Stu Fenton and Larry Meier are to be congratulated for their excellent job of barbecuing, also a good word for Executive Ruler Neil MacMillan and the Lodge brothers who did a bang-up job in all departments.

The day was completed with a Midnight Frolic in the North Irma Community Hall. Courtman's orchestra gave forth with the music. A cheerful and happy ending to a full, filling and entertaining day.

Grading Pigs

Alberta has not been producing enough Grade A pigs in recent years but has been losing too many in the C grade. This should be of concern to farmers because there is quite a bit more profit made on an A grade pig than on a C grade one.

Experiments at the University of Alberta have shown that the main points in raising high grading pigs are as follows, and in the order shown:

1. Use only good bacon type breeding stock.
2. Market at the correct weight.
3. Employ good management practices.

Check Those Granaries

With warm weather and moisture it doesn't take insects such as mites and grain beetles long to do considerable damage to a lot of grain. Farmers who have bins full of grain would be well advised to check them for any sign of dampness or heating. If there is any sign of heating or insect damage the grain should be moved. Running it through a cleaner will usually get rid of a lot of the insects and will definitely help to dry the grain and cool it. For a heavy infestation of mites or beetles it is possible to fumigate the grain.

Rat Control

Everyone is aware that rats have invaded the eastern part of Alberta and that there is a determined fight being made to prevent them spreading any farther west. There are full time Rat Control Officers working all along the eastern border but these men need help if our fight to prevent the spread of rats is to be successful.

Everyone living in this part of the province should clean up their premises as this is one of the main items in rat control. This involves cleaning up or burying junk piles, putting lumber, poles, etc. on trellises and in general tidying up the place. Those living in the first three ranges west of the fourth meridian should also make up bait stations and put out Warfarin poison so as to prevent rats from becoming established and increasing.

Warfarin is supplied free of charge and your Rat Control Officer will be glad to instruct you regarding the proper way to use it. If you will all co-operate the rats can be eradicated from Alberta.

New Hall Opened July 8

The North Irma Community Hall was opened on July 8 with a dance, which was enjoyed by a large crowd.

Through the efforts of the community the Ross and Alma Mater school buildings have been combined to make this fine community centre.

The hall was suitably decorated in green and gold in keeping with Alberta's Golden Jubilee.

The highlight of the evening was the presentation of small gifts to the oldest resident of each of these districts, namely Mr. and Mrs. A. A. Fischer and Mrs. H. A. Larson.

Mr. and Mrs. Fischer came to the Alma Mater district in 1908. Mrs. Larson came to the Ross district in 1906. Due to illness she was unable to be present on this occasion so her son Rick accepted the gift on her behalf.

The chairman, Mr. Ted Thurston, in making the presentations, remarked on the many worthy contributions these pioneers have made to the life of the community.

Mr. Louis Larson received the recognition of being the first baby born in the Ross district.

Mrs. Fischer was then asked to cut the ribbon which marked the official opening of the hall, which we hope will be a real asset to the community.

The Association would like to take this opportunity to thank all who made this evening so successful.

Saskatchewan has nearly twice Quebec's total of railway track.
